

MIDAS # 5258
CAESAR POND

BOWDOIN TWP., SAGadahoc CO., MAINE

AREA 60 ACRES

CAESAR POND

Bowdoin Twp., Sagadahoc County
U.S.G.S. Bowdoinham, Maine

Fishes

Minnows

Physical Characteristics

Area - 60 acres

Maximum depth - 8 feet

Temperatures:

Surface - 68°F

8 feet - 68°F

Principal fishery: None

Caesar Pond is an extremely shallow pond so choked with aquatic plants that use of a boat and motor is nearly impossible. An experimental stocking of largemouth bass was under taken by the Maine Department of Fisheries and Wildlife in 1955. This introduction failed because of severe oxygen deficiencies which occur during the winter months.

Management of any sport fish species remains impossible.

Surveyed - September, 1954

Resurveyed - 1963

Revised - 1998
